NAMED ITS LEADERS.

Pennsylvania Republican Convention Does Some Quick Work.

RECENT LEGISLATURE INDORSED.

Democrats Have an Inning In Iowa and Virginia Republicans Meet at Richmond—Doings in the Political World.

Harrisburg, Pa., Aug. 21.—The Republican state convention which met in the Harrisburg opera house to nominate Judge William P. Potter of Pittsburgh for supreme court judge, and State Representative Frank G. Harris of Clearfield, for state treasurer, was a most unusual gathering. United States Senators Quay and Penrose and other party leaders were absent. Judge Potter was formerly Governor Stone's law partner, and was appointed to the supreme bench last year to succeed the late Judge Green. Mr. Harris is serving his third term in the house of representatives and has always been a follower of Senators Quay and Penrose. The platform, on which they were nominated, endorses the national and state administrations and the official acts of Pennsylvania's United States senators, commends the last legislature, conceded the right of labor and capital to organize and denounces "yellow journalism." Among other things it says:

"We regret that under prosperity differences should arise between capital and labor, but we hope and believe that these disputes will be fully settled on an equitable basis that will do full justice to the contending parties. The right of capital to make proper and legal combinations has been recognized by legislative enactments in many of the states and this carries with it the right of labor to organize in proper and legal ways for its protection and advantage; but neither capital nor labor has the right to resort to violence or illegal methods to redress wrongs or obtain rights. We are amused, rather than censured, by the declarations of the late Democratic state convention, for we readily recognize, as all the people must, the co-operation of certain newspapers in their preparation, which papers failing in their attempt to disrupt the Republican party, have crawled under the tents of the Democracy with their state and false charges and succeeded in having them adopted as a platform."

IOWA DEMOCRATS.

Leading Features of the Big Gathering at Des Moines.

Des Moines, Ia., Aug. 21.—When the Democratic state convention opened here the man to be nominated to head the ticket was just as much a mystery as ever. The absolute withdrawal of Cato Sells from the field left at least a dozen men of local strength in the race, none of whom seemed particularly agreeable to the leaders.

The Hon. E. M. Sharon, the temporary chairman, said in part: "The Democratic party must not be a negative party—a party of mere opposition. It can't be a party of calamity which draws vitality and success from industrial or financial depression. It will merit success because it grapples the problems of the present and brings to their solution wise statesmanship, the wisdom that comes from Democratic principles, because it is guided by the compass of the constitution, ever pointing to the great declaration of human rights. We are facing today conditions that are momentous, destructive to our industries, our commerce and the welfare of our people—conditions that have been created by the Republican party in violation of the Democratic doctrine of equal rights to all and special privileges to none. Imperialism and trusts are the two great dominant evils of our national life. The colonial policy of the administration had its inspiration and its demand from place hunters, concession grabbers, from those who have or seek special privileges in our acquired possessions. If the administration had said to those that have possessions in Havana and Manila that their policy was equal rights and special privileges to none, we would have had no war in the Philippines and our army of occupation would long ago have left Cuba. There can be no solution of the trust problem, there can be no breaking down of monopoly until government favor is withdrawn from them. Destroy monopoly and special class privileges and you kill the trusts. Commence in the patent office, the fountainhead of legalized monopoly."

The committee on permanent organization selected ex-Mayor John Redmond of Cedar Rapids, as permanent chairman, and made the balance of the temporary organization permanent.

Virginia Republicans.

Roanoke, Va., Aug. 21.—The Repub-

lican state convention assembled here in the Academy of Music. The immense auditorium was filled. Hon. Park Agnew, chairman of the state executive committee, called the convention to order. There was a contesting delegation from Richmond, but the matter was adjusted after some delay. John T. Blair of Wythe presented C. A. Herrman's name as temporary chairman. He was nominated by acclamation. Four of the five living Confederate generals of Virginia are in attendance.

LETTER OF KNOX

Draws a Reply From the Anti-Trust League—What Both Parties Say.

Washington, Aug. 21.—Attorney General Knox sent a letter to the joint committee of the American Anti-trust league and Assembly 66, Knights of Labor, in reply to one from the committee requesting information from Mr. Knox regarding the United States Steel corporation. He says he knows nothing of the inner workings of the trust or the officers, and concludes: "If this department is under obligations to furnish information to prospective litigants in undisclosed proceedings, its responsibilities and labors are necessarily greater than they have ever been imagined from the time of its formation. Indeed, as there are generally two parties to every controversy, it would be difficult to discharge such alleged duty to both parties in view of conflicting interests. This department was not called into being to furnish information to private litigants. Its duty and its object is to enforce the federal statutes as interpreted by the courts wherever there is probable cause for believing that they have been violated."

H. P. Martin, chairman of the joint committee of the American Anti-trust league, and District Assembly 66, Knights of Labor, has made reply to the letter of Attorney General Knox sent to the committee. He says in part: "We are not aware that there was any impropriety in a citizen or body of citizens publicly addressing the chief prosecuting officer of the United States in reference to grave violations of law that were being committed to great injury of the people of the United States. The language of the attorney general looks evasive in view of the fact that it is currently believed that the members of the steel combine selected one of their former attorneys for attorney general in order that they might have a friend at court in the popular clamor for the enforcement of the law against trusts. We will give him an opportunity now to reassure the people, as to his desire and intention to enforce the law against trusts. Will Attorney General Knox offer a reward for the producing of incriminating evidence against the trusts for which we asked and which he says he does not possess? Will he announce that the department of justice of the United States will pay a substantial reward to any person or persons who will produce evidence that will lead to the arrest and conviction of any persons or corporation guilty of violating the federal statute against trusts?"

TO FIRE A PLANT.

Alleged Attempt by Parties Unknown Status of Steel Strike.

Pittsburg, Aug. 21.—The strike situation has not materially changed. The strikers have not called any men out and none of the plans of the manufacturers for additional resumptions with nonunion men have matured. The feeling of irritation at Wellsville has been increased by the appointment of 30 strike breakers as special officers to guard the plant of the American Sheet Steel company, and the police have had to disperse noisy crowds at the recently tied-up tube plants, but there has been no serious trouble at any point.

It is claimed an attempt was made to fire the Monongahela works of the American Tin Plate company. According to the story told by John Schuster, general labor boss of the plant, a prussure gauge was knocked off of an 8-inch gas main and burning paper thrown into the place with the idea of destroying it with explosion and fire. He says he plugged the break before the brand was thrown and saved the works. The strikers indignantly deny that they had anything to do with any plot to wreck the plant and are inclined to discredit Schuster's story entirely.

The promised break in the Carnegie properties has not yet come. As far as outward appearances go the lower union mill in this city has not been affected, but the strikers insist that they have seriously impaired it. The strike leaders are trying hard to gain a foothold in the Clark mill, which is running with nonunion men, but that property, too, seems to be going at practically full capacity. It is quieter at Duquesne, but the fight for supremacy there is by no means over.

NEIGHBORHOOD NEWS.

Items of Interest Contributed by Our Country Correspondents.

ORANGEBURG, Aug. 20th.—I visited Rectortville one day recently. I had been a guest of the village on several other occasions, and spent the entire summer several times, but I was then a little tot—playing my first part in the "seven ages," whereas I am now approaching the "last stage of all that ends this strange, eventful history." I have no recollection of these visits, and am forced to depend for information on the reminiscences of a maternal ancestor. I was brought down in the summers of '52, '53, '54, '55, by private carriage, attended by a colored nurse, and my mother, to breathe the balmy air of old Mason, as I was sickly and never walked a step until five years old. My being alive at the present time is a result of the combined skill of Drs. William P. and John Dunnington, my grandfather and uncle, two of the foremost physicians of Bourbon County at that time, residing at Millersburg where I was born. With my mother and nurse we passed the summers alternately at the Blue Lick Springs Hotel, and Uncle Daniel Bradley's, at Rectort. Afterward, when I could toddle around a little, I have a very distinct and painful recollection of going head first down nine steps off of Uncle Bradley's porch, the result of playfully clinging to the leg of Garrett Bradley, who shook it playfully, thinking I would hold on, but I didn't. So I was not at all a stranger in Rectortville, although my visits had been like the angels, "few and far between," nearly half a century elapsing between visits. The old house and old friends were gone, and time with relentless fingers, had changed the golden-haired infant to a gray-bearded man.

To show the illtimed jealousy and narrow-mindedness of some people, the following is related: A farmer who had been under the ban for wearing store clothes, built a square pen of green oak lathes in his front yard along-side the pike, to feed young chickens in, just at the beginning of the recent dry spell. Every one knows what the hot sun beams will do to green lumber. In a few weeks this man's square pen had assumed the shape of a figure eight. The disgruntled neighbors, passing along the pike, noticed this, and taking it for granted he was becoming afflicted, and trying to have an ornamental front yard, quit speaking to the unfortunate man altogether.

Saint Thomas, D. W. I., Aug. 21.—A severe gale swept over Barbadoes and other islands. A number of small craft were wrecked. The storm was most severely felt at St. Vincent, where all the vessels and jetties were destroyed. The force of the gale was also felt at the islands of Martinique and Dominica, but not so severely as the other places mentioned.

"Called Down."

Editor Bulletin.—A Maysville telegram in recent Cincinnati papers says that at a meeting of the Maysville Board of Health, a Dr. Harrington, (colored), called the Maysville doctors down for distributing scarlet fever, and that "Dr. W. K. Anderson," (white), coincided in the views of his colored brother. Will you be kind enough to publish the names of the persons who were present at this meeting of the Board of Health? AN OLD SUBSCRIBER.

If Dr. Harover, Health Officer, or the Secretary of the Board, will furnish the desired information, the BULLETIN will publish it, with pleasure.

PITCHED BATTLE

Between Deputies and Striking Miners. Troops Requested.

Cincinnati, Aug. 21.—A dispatch from Madisonville, Ky., reports that Judge Nunn, of that circuit, had been wired to requesting him to call on Governor Beckham to send troops to assist the local authorities in preserving peace. This request is in consequence of a pitched battle at St. Charles between deputy sheriffs and union men, in which over 500 shots were fired and several were wounded. The St. Charles Coal company employs nonunion labor. Union miners have been trying to get the men into their organization. A crowd of union men were at St. Charles station armed and behaving in a boisterous manner. Warrants for their arrest were placed in the hands of deputy sheriffs, who found the men in a house barricaded. When the officers approached they were fired on. They returned the fire until the men retreated from the house and several of them were captured. Ben Robinson, Roy Blanks, a negro named Chappell and several others received flesh wounds. The citizens have organized to prevent further violence.

Martinez, Cal., Aug. 21.—Jack Winters, the man who got away with \$320,000 in gold bullion from the Selby Smelting works, and afterwards confessed, was sentenced to 15 years at Folsom. The prisoner asked to be sent to San Quentin, but the request was refused. He was taken to Folsom.

CAUGHT IN A TUNNEL.

An Explosion of Gas Extinguishes the Lives of Five Workingmen.

ANOTHER DISASTER AT CLEVELAND.

Waterworks Crib Number Three, Two Miles Out in the Lake From Fateful Crib Two, the Scene—The Victims.

Cleveland, Aug. 21.—Five men were drowned as the result of an explosion of gas in the tunnel leading from waterworks crib No. 3, two miles from crib No. 2, where the fatal accident of last Wednesday occurred. The work of sinking the shaft at crib No. 3, which is five miles from shore, was completed Tuesday. Five men were at once put to work digging a tunnel toward crib No. 2. These men had not been working but a short time when a terrific explosion of gas occurred. The casing of the tunnel was crushed and a torrent of water from the lake rushed into the opening. The five men who were in the tunnel had not the slightest opportunity to escape, and perished before assistance could reach them.

The dead: Ray Treadshaw, James Williams, Daniel Higgins, James Dal-lincourt, John Bert.

Crib No. 3, five miles from shore, and two miles beyond crib No. 2, where nearly a dozen lives were lost a week ago, was the scene of the latest accident. The heavy casing of the shaft was shattered by the terrific force of the explosion and the water from the lake rushed in upon the unfortunate workmen at the bottom. Two men who were at work on staging it at the top of the shaft were blown high into the air, but alighted on the crib, and beyond being stunned, were not seriously injured.

The accident occurred Tuesday night, but nothing was known of it on shore until Wednesday. For some unexplainable reason no boats are kept at the cribs. Thirty men who were on the crib when the explosion took place, spent the night vainly signaling for assistance. It was long after daylight before a tug reached them. It is supposed that the men digging struck a vein of gas which was ignited by a spark made by a workman's pick. Heavy iron girders and machinery weighing more than a hundred tons were forced out of the shaft by the explosion. The crib was wrecked. Death must have been instantaneous to the workmen in the tunnel, for their comrades above heard no outcry. So great was the disaster wrought by the explosion that it will probably be weeks before the damage can be repaired and the bodies of the unfortunate workmen recovered.

Why Tarries the Court.

Peking, Aug. 21.—The British troops who have been here since last year are leaving and are being relieved by new commands. Three companies of the Fourteenth Sikhs and a battalion of the Sixth Burmahs have arrived. Colonel Cary replaces Colonel Alexander as commander in Peking. The failure of the British to evacuate Peking annoys the Chinese officials. They alone refuse to permit Yuan Shih Kais' troops to enter Peking, though only two of the 12 proposed posts are within the former British section. Chinese officials confess that the reason given for the court's delay in returning to Peking is a mere pretext. The excuse offered recently has been the bad condition of the roads, and heat, the infirmity of the empress dowager and the desire to celebrate her birthday at Kai-Feng Fu. The real reasons are that the powers still retain supremacy in Peking and vicinity and evacuation has not been accomplished.

Youth Found Dying.

Cincinnati, Aug. 21.—An unknown young man was found in a dying condition on the street and taken to the hospital, but died in the patrol wagon and was taken to the morgue. There he was identified as Edward G. Overbeck, notary public, and brother of a well known attorney. Jack Reardon, who was last seen with him, was arrested on suspicion. Reardon says he was intoxicated and does not remember what occurred. So far it is not known whether Overbeck was murdered or died from the effect of laudanum, a bottle of which was found in his pocket. One pocket was turned inside out, but his watch and chain remained untouched.

Teachers at Manila.

Manilla, Aug. 21.—The United States transport Thomas, having on board 600 teachers, arrived here, but their landing has been delayed by a typhoon. Preparations have been made to give them a great reception. The government has prepared a temporary barracks on the exposition grounds for their accommodation.

If the people don't want the trusts, about the quickest way to rid the country of them is to elect an administration that will knock out the combines instead of building them up. Go after the trusts through the ballot box.

STATISTICS of textile mill construction in the United States for six months of 1901 show 261 new mills, forty-five of which were built in North Carolina. Georgia has thirty-six; South Carolina, thirty-one, and Alabama, twenty-seven. "The new South doesn't propose to linger at the tail end of the industrial procession when the question of utilizing her own products is in hand," pertinently remarks an exchange.

"Now that the fighting in the Philippines is about over," says Philadelphia Record, "the consciousness that there was little or nothing worth fighting for is borne gradually upon the reluctant ears of sordid American commercialism. English capitalists already dominate the industrial and financial situation in the archipelago, and Federal troops and civil government are but so many additional securities for alien ownership."

DEMOCRACY THEIR ONLY HOPE.
At a recent meeting of the United Garment Workers of America, a delegate from St. Louis introduced the following resolution:

Whereas, The rapidity with which wealth in this country is being accumulated by the few, places in their hands the power to control administration of the Government and the judiciary, both of which functions have been used to deprive the working classes of their rights, and

Whereas, The repeated efforts to establish independent reform and labor parties have accomplished nothing, which divide the ranks of labor into factions, because these parties soon become as corrupt as the others, and it being apparent therefore, that the only hope lies in the union men allying themselves with the party most friendly to the movement; therefore, be it

Resolved, That this convention urge upon the members to join the only party which can benefit them, namely the Democratic party.

The organization being non-political, the resolution was not considered, but it is a straw showing which way the current is drifting.

STATE FINANCES.

All Individual Claims Paid in Full and There is a Balance in the Treasury.

FRANKFORT, Ky., Aug. 20.—For the first time in perhaps twenty years or longer there is not a single unpaid individual claim on file in the claim department of the State Auditor's office. There was on hand in the Treasury yesterday afternoon at the close of business, and after the auditing of the last claim, the sum of \$187,984.27. Out of this there is due the Central and Western Insane Asylums their quarterly allowance amounting to about \$90,000. This will be paid early next week. There will then be no further big draw on the Treasury until the first portion of the school money is due in October next. In the meantime, during the rest of this month and September, there will, it is estimated, be collected and paid into the treasury from different sources about \$200,000.

From this statement of facts, as shown by the official record, it will be seen that the State finances are in good condition and that a corps of careful and competent officials are on duty here looking after the interests of the people. Auditor Coulter returned to-day from a vacation trip spent in the East, and was well pleased to know that the affairs of his office were working so smoothly in his absence. From now until the legislative session the clerks in the department will have no trouble keeping the individual claims audited up to the close of each day's business.

NOT THE ONLY ONE.

There Are Hundreds of Maysville People Similarly Situated.

Can there be any stronger proof offered than the evidence of Maysville residents? After you have read the following quietly answer the question:

Mr. A. W. McClanahan of 119 West Second street, says: "The use in my case fully demonstrated the value of Doan's Kidney Pills. I suffered more or less from kidney trouble for twenty years, steadily becoming more persistent as time passed on. My attention was called to Doan's Kidney Pills and I got a box at J. James Wood & Son's drug store, corner of West 2nd and Market streets. The treatment so greatly benefited me that my only regret is that I did not know of that valuable remedy years ago, for had such been the case I would have been saved much suffering."

Investigation into the execution of the Indiana marriage laws following the action of the Attorney General in the Jeffersonville Gretna Green cases has developed that the laws are being disobeyed in nearly every county in the State, and thousands of illegal marriages are being solemnized every year. Few County Clerks required the affidavit that the female resides in the county as, the law specifies. The Attorney General says every license issued to nonresidents is illegal, and the clerk, justice or minister can be prosecuted in each case.

They Struck it Rich.

It was a grand thing for this community that such an enterprising firm as J. Jas. Wood & Son secured the agency for Dr. King's New Discovery for consumption, the wonderful remedy that has startled the world by its marvelous cures. The furor of enthusiasm over it has boomed their business, as the demand for it is immense. They give free trial bottles to sufferers, and positively guarantee it to cure coughs, colds, bronchitis, asthma, croup and all throat and lung troubles. A trial proves its merit. Umbrella

TALK

A factory representative approached us with an Umbrella proposition. It was late for one season, too early for the next. To use surplus stocks a special price was offered provided the umbrellas were bought in quantity—200 was the number named. We hesitated; 200 umbrellas added to our present large stock was a big consideration. But samples were produced—the hesitation vanished like mist before the sun.

You know the umbrella we've been selling for \$3? Yes, even yesterday. To-day we have positively the same value for \$1.50. We don't know how the manufacturer squares the equation and we don't care. It's not our loss. We're making a legitimate profit and advertising ourselves in the best possible way by giving you the umbrella bargain of your life. And don't forget while the umbrellas are cheap, very cheap, like everything else here they had to be something more than cheap, first.

Best Carolina Black Silk with case and tassel. Handles are genuine French Horn, Dresden, Pearl, Ivory, Arabian Vine, Madagascar—with and without sterling trimmings. Crooks, oblongs and twists. All are the favored size—26 inch.

5 and 10c. Store

Just as the town clock was striking fifteen minutes past 3. Everything was still as death. There was a mighty uproar in the tin department, when a tin cup raised shrieking, trembling and exclaiming that their kind was to be sold for 5c. Boasting the table oilcloth was heard in a loud voice saying, I am 1 1/4 yards wide and thirty-six inches long and of the finest grade and I am to be sold for only 15c. Carpet tacks were next heard from. There are 300 of us and our points are of sharpened steel and our heads can be hammered for only 5c. Rubber collars were heard from next, in a low voice saying, "You can launder me in a bowl with soap and water and I will go around your rubber neck for only 25 cents." Silver tea spoons were heard in a silver tongue, "There are only six of us, just one half dozen; we shine and shine beautiful to behold. We are guaranteed to last a lifetime. We are to be sacrificed for only 50c. There was a great uproar heard in rug, straw matting, china, glass, hosiery, linen and gents furnishing goods department. This man tripped away silently, but knowingly, that on account of space we could not tell you what they had to say, but the goods talk for themselves at the 5 and 10 cent store, 45 West Second St., Maysville, Ky.

Mr. Campbell was a native of Mason, born near Washington, and would have been eighty-five years old the 30th of next December. His wife, who was Miss Rebecca Burgoyne, a sister of Mr. O. D. Burgoyne, died some years ago. Their only child died in infancy. Mr. Campbell was the last of his family, his brother, C. T., having died last week at Gualala, California.

The funeral takes place this afternoon at 3 o'clock at the M. E. Church, South. The services will be under the auspices of DeKalb Lodge No. 12, I. O. O. F., of which he had been a member since October 22nd, 1844. Burial in Maysville Cemetery.

ASTOUNDED THE EDITOR.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters, which helped her at once, and, after using four bottles, she is entirely well,—can eat anything. It's a great tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, loss of appetite, stomach and liver troubles it's a positive, guaranteed cure. Only 50c. at J. SHOES.

Most all shoe houses sell various kinds of footwear. We confine ourselves to but one kind—the best that are made.

We long since learned that our customers find our Shoes the cheapest. Hanan & Son's and W. L. Douglass (both lines confined to us) are our leaders; every pair guaranteed to give satisfaction or money back.

We closed out a big lot of Belts, the nicest line we ever had. Prices 25c., 50c., 75c.
